PROFESSIONAL SUMMARY

Data and Business Analyst with 4+ years of experience turning business questions into measurable KPIs, predictive models, and executive-ready dashboards. Skilled in SQL, Python, R, Power BI, Tableau, and R Shiny, with a record of building ETL and reporting solutions that cut turnaround time and drive decisions in Agile environments.

TECHNICAL SKILLS

- **Languages & Analytics:** SQL, Python, R, Advanced Excel, Statistical Modeling, Forecasting, Classification, Data Mining, Exploratory Data Analysis, A/B Testing, Data Storytelling.
- **BI, Data & Cloud:** Power BI, Tableau, R Shiny, KPI Design, ETL, Data Warehousing, Data Modeling, Data Quality & Governance, SQL Server, MySQL, MongoDB, AWS, Azure, GCP.
- **Business Analysis & Tools:** Requirements Analysis, BRD, FRD, User Stories, Process Mapping, Gap Analysis, UAT, SDLC, Agile, Scrum, Waterfall, Jira, Confluence, Visio.

PROFESSIONAL EXPERIENCE

Data Analyst | InfoSoftSol, Birch Run, Michigan, USA

May 2025 – Present

- Architected and maintained 10+ self-service dashboards in Power BI, Tableau, and R Shiny, cutting ad-hoc reporting requests by 30% and giving leadership real-time KPI visibility.
- Partnered with cross-functional stakeholders to translate business questions into measurable KPIs, consolidating data from 5+ source systems into analysis-ready datasets used for weekly leadership reporting.
- Engineered and optimized SQL queries and ETL pipelines, reducing average report refresh time by 40% and enabling faster, data-driven decision-making across teams.
- Built statistical and predictive models in R and Python, including forecasting and classification improving forecast accuracy by 18% and directly informing planning decisions.
- Conducted exploratory data analysis to uncover trends and actionable insights, presenting data stories to both technical and non-technical audiences to drive organization-wide alignment.
- Standardized data governance practices by documenting data models and QA processes, improving cross-team data reliability and cutting downstream reporting errors.

Risk Information Systems Specialist | Udbhata Technologies, Hyderabad, India

Apr 2023 – Nov 2023

- Elicited and documented BRDs and FRDs across 3+ stakeholder groups for a corporate risk mitigation system, reducing requirement revision cycles by 25%.
- Owned Jira backlog management for an Agile team of 8, decomposing 40+ requirements into sprint-ready user stories, and co-led UAT across 4 release cycles with zero critical defects at launch.
- Automated financial data validation using SQL Server and Excel macros, cutting manual validation time by 30%; mapped As-Is/To-Be processes in Visio to drive a 15% reduction in risk-reporting turnaround.

Business & Marketing Analyst | Prominent Overseas Careers, Hyderabad, India

Aug 2020 – Oct 2022

- Built Tableau dashboards consolidating cross-channel marketing data, eliminating 8+ hours of manual reporting per week and delivering a 20% efficiency gain for senior leadership.
- Developed A/B testing frameworks in SQL and Python to iterate on UI/UX designs, driving a 12% increase in lead conversion rates.
- Analyzed customer segmentation in SQL and Excel and audited campaigns across 5+ channels, defining KPIs adopted by leadership and cutting cost-per-lead by 15%.

EDUCATION

University of New Haven, Connecticut, USA

December 2025

Master of Science in Business Analytics — GPA: 3.80/4.0

Westin School of Business (Krishna University), Andhra Pradesh, India

July 2020

Bachelor of Business Administration — GPA: 3.80/4.0

PROJECTS

- **HR Analytics Capstone (Power BI, R, R Shiny, SQL):** Defined performance and stress KPIs with stakeholders; delivered dashboards tracking workforce health for 200+ employees.
- **PATH Transit Data System Analysis (SQL, Power BI, Visio):** Mapped ridership trends with SQL and modeled end-to-end data workflows to optimize commuter scheduling.

CERTIFICATIONS

Business Analytics using SQL & Python (2025) | Power BI & Tableau (2024) | MS Office Specialist: Advanced Excel (2023)
